

When we began to plan our building, we knew we wanted something out of the box – both in design and function. Kevin Bragg was there every step of the way to make sure our dream became a reality. From the very first meeting with our architect, through seemingly endless town board meetings and with his countless on-site visits during construction, Kevin made the building process easier than I anticipated.

The Chrisantha team he put in charge of construction could not have been more professional. I have friends in the construction business who were truly impressed with the quality and attention to detail they saw during construction. Mark Enos was an outstanding foreman, who always made me and the people from my agency feel welcomed during our nearly daily visits to the site. He took the time to explain the building process to us and went to extremes to make sure the end product was exactly what we were looking for.

It is with complete confidence that I recommend Chrisantha Construction to anyone looking for quality, value and, most importantly, honesty from their contractor. In my case, they just didn't build a building – they built a dream.

Sincerely,

Michael Schwabl
